PROFESSIONAL SUMMARY

Software Engineer and Full Stack Developer with 1+ years of hands-on experience in developing and maintaining web applications. Skilled in Next.js, JavaScript, Node.js, Express.js, MongoDB, REST API integration, and Socket.IO. Experienced in converting Figma designs into responsive and functional web interfaces, integrating APIs, and developing real-time applications. Currently working on live projects including Bison Bharat and previously contributed to the Arqonz web application and real-time chat system.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3, Tailwind CSS

Frameworks & Backend: Next.js, Node.js, Express.js

Databases & APIs: MongoDB, MySQL, REST APIs

Tools & Technologies: Socket.IO, Docker, Kafka, Postman, Git, GitHub, VS Code, Figma, Power BI, MS Excel

PROFESSIONAL EXPERIENCE

Software Engineer | Algolima Technologies Pvt. Ltd.

December 2026 – September 2026 | Remote

Bison Bharat Project

- Started working on the Bison Bharat project from the initial development stage.
- Developed and implemented the user interface using Next.js.
- Integrated APIs with the frontend application to connect user interfaces with backend services.
- Worked on improving application functionality and frontend-backend data communication.
- Contributed to the development of a live and running project deployed in a server environment.

Technologies: Next.js, JavaScript, REST APIs

Software Engineer | Binbird Technologies Pvt. Ltd.

June 2025 – November 2026 | Remote

Arqonz Web Application

- Converted Figma designs and screens into responsive and functional web interfaces using Next.js.
- Developed reusable frontend components based on project requirements.
- Integrated APIs with the frontend application to enable communication with backend services.
- Worked on improving UI functionality and frontend-backend integration.

Technologies: Next.js, JavaScript, Figma, REST APIs

Arqonz Real-Time Chat System

- Developed a real-time chat system for the Arqonz project.
- Built the frontend application using Next.js.
- Developed backend functionality using Node.js and Express.js.
- Implemented real-time communication features using Socket.IO.
- Used MongoDB for storing and managing application data.
- Worked on frontend development, backend development, API integration, database management, and real-time communication.

Technologies: Next.js, Node.js, Express.js, Socket.IO, MongoDB

EDUCATION

Master of Computer Applications (MCA)

2023 - 2025

United Institute of Management, Prayagraj | **70.3%**

CERTIFICATIONS

- Python Basics Certification – HackerRank
- Web Design Certification – FreeCodeCam
